STANDARD COUNTERWEIGHT FEATURES

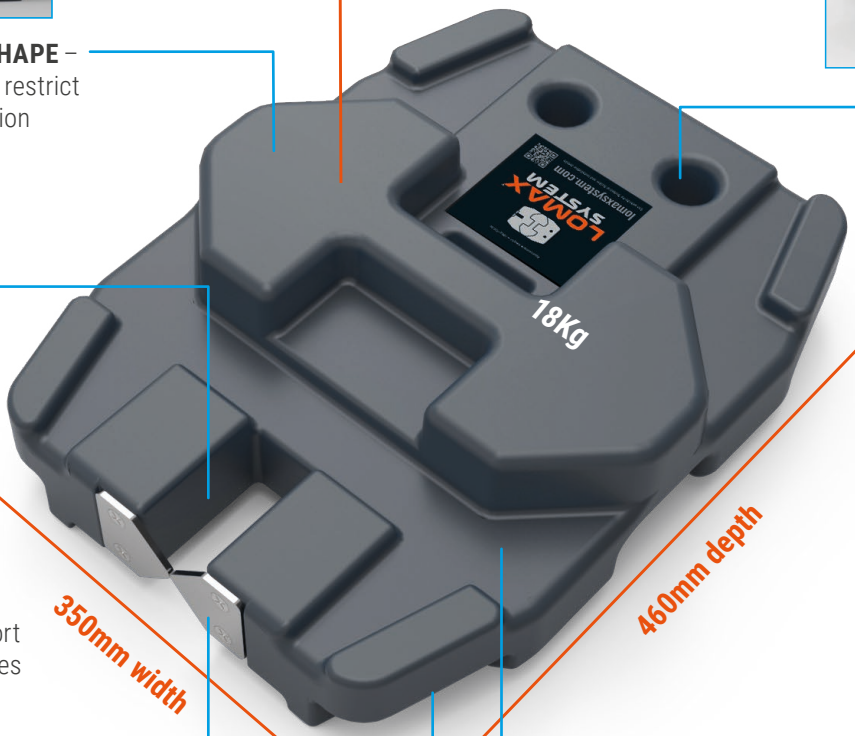

MODULAR HOARDING SOLUTIONS
COMPACT | REUSABLE | FREESTANDING

INTERCONNECTING SHAPE – specifically designed to restrict movement in any direction when stacked

120mm height

SUPPORT POST readily inserts into post holes to create a high fulcrum point offering enhanced stability

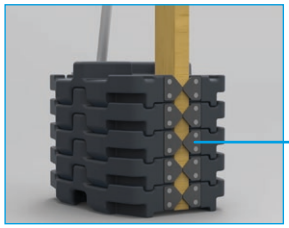

STUD RECESS – Uses standard 4x2 MPG 10 timber, logically orientated on the strong axis for enhanced hoarding stability

PATENTED METAL PLATES, cleverly support the pine stud and secures it in place

350mm width

460mm depth

SUPPORTS CROSS BRACING so the hoarding won't 'snake' out of position once it's installed

EASY TO CARRY HANDLES
